

TOURNAMENT RULES

FOREWORD

The goal of the Inclusive Padel Tour is to grow the padel movement also for people with disabilities.

To succeed in this ambitious project, we have created an amateur and fun environment.

See the official [FIT](#) rules for the complete list of padel rules.

Exception: Additions to the Official Rules for the Inclusive Padel Tour

- **Team:** Each team will be in inclusive mode, i.e. composed of one player with and one without disabilities.
- **Players:** Both able-bodied players and players with prostheses, wheelchairs and obvious motor limitations will be admitted to the tournament, subject to maximum slot availability and at the discretion of the tournament management.
- **Rebounding:** Two rebounds are provided for players with disabilities only. Players with upper limb disabilities will count as bionic in the team but will play with only one rebound.
- **The tournament formula:** Groups of three or four teams, with the first two in each group and the best third if the tournament structure so requires.
- **Prizes and Ranking:** Able-bodied players who take part in the circuit for one or more stages will be able to compete for prizes in the single stage, as will bionic players. Only the latter, however, have the chance to win prizes linked to the final ranking.
- **Points allocation:** Each participation in an IPT tournament will entitle each player to 15 points. Each game won entitles you to 1 point. Winning the tournament entitles you to 40 points, for second place there are 20 points up for grabs.

- **Reimbursement for travel and accommodation:** In the event that the organisation obtains the support of sponsors (e.g. orthopaedics or others), the players will be able to benefit from the coverage of travel and accommodation costs. Otherwise, any costs will be borne by the players.
- **Membership and insurance cost:** The cost of the annual ASD Bionic People membership has been set at €25 and will include insurance and registration for activities
- **Competitive Medical Examination:** A competitive medical examination is MANDATORY for both insurance and safety reasons. It is important to take care of your health.
- **Composizione Team:** Bionic players may propose a person of their choice as their teammate. In this case, the participation of the candidate person will be evaluated and approved or not by the Organisation. We would like to remind you that the ultimate goal is to maintain the amateurism of the tournament and maximise the fun of the participants, and that the priority is to pass a good message related to inclusion.
- **Others:** In case of doubts or others exceptions feel free to write an email to info@inclusivepadeltour.com
